

FAASTeam, EA-63 FSDO presents:

# **In-Depth Review of Massachusetts Aircraft Accidents, Reminder Don't miss this Seminar!**

During this seminar we will review who these pilots were; not by name but by their qualifications and proficiency levels. We will learn from their mistakes. Mistakes as simple as improper use of communication procedures with ATC, or fatigue has killed even professional pilots. We will learn about the accident chain, and how it could have been broken in each of these accidents. After a very long and difficult winter with precious little flying opportunities this is the time to for questioning our skill levels and proficiency. Are we current? Does "current" equal proficiency? Join us to look at these issues before we fly off into the sunset. The snack bar will be open early for food and beverages. Plan to arrive early, seating is limited. Please register early. Reminder Message, on 3-5-15, 36 seats remaining!
